DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 16th, 2009 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims **1-20 and 24-33** rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

4. **Claims 1-11** recite subject matter ("**by moving the cutting mechanism in a forward direction**" and "**a direction other than the forward direction**") which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had position of the claimed invention.

Art Unit: 3772

5. **Claims 12-20** recite subject matter ("**by moving the blades in a forward direction and "direction other than the"**") which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had position of the claimed invention.

6. **Claims 24-33** recite subject matter ("**in a direction other than the forward direction"**") which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had position of the claimed invention.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claim **21** is rejected under 35 U.S.C. 102(b) as being anticipated by Seidler (US 5,816,404).

9. **As to claim 21**, Seidler teaches method steps comprising providing a receptacle **10 (see figs. 1 and 2; col. 3 lines 25-30)** having a cover with an exterior surface and an interior surface covering a cavity (**see col. 3 lines 25-45**); providing a cutting mechanism having at least one outer blade and a tubular body having a distal end with a plurality of inwardly and outwardly facing blades; piercing the cover with the blades; and rotating the cutting mechanism through the cover to form multiple openings in the cover (**see fig. 4 and col. 4 lines 35-55**).
